

Hi I herd about the changes that you guys want to make on on the fm broadcasting. In particular I'm worried of air-1 because is one of the possitive radio stations that all the family can listen. As a christian radio station it has bring the word that I need everyday. It is very important not only in my life but in some others that are in drug problems, like my friend that was involved on drugs herd this song by kutless, the name of the song is run, it talks about god asking why you run and hide from his presence and it says that he just wants to love you and be with you. It also says that if you remember those times that he spend with you. That song really helped her and now she is on the right track again. There is many other people that can be reach with this radio station.

Thank you for your attention

sincerely
Javier Galaz
